SEKTION GENOM LÅGER

FASAD AV TILVERSGÅRD - BENSJÖNÄS

FASAD AV BYGGNAD B MOT NORR

The drawing is a vertical architectural section and facade. The top part shows a cross-section of a roof structure with rafters and a flat roof. Below this, the facade of a building is shown. The building has a long, narrow profile. The left side of the facade (which would be the front in a standard orientation) features a series of windows: a large multi-paned window, followed by several smaller rectangular windows, and another large multi-paned window at the bottom. The right side of the facade shows a series of vertical lines, possibly representing a wall or a different section of the building. The drawing is oriented vertically on the page, with the title 'SEKTION GENOM LÅGER' at the top, followed by 'FASAD AV TILVERSGÅRD - BENSJÖNÄS', and 'FASAD AV BYGGNAD B MOT NORR' at the bottom.
